THE OPPOSITION TICKET,-Yesterday beng a bright spring Sunday and the muniat election being but a few weeks off on among the knots of citizens who congregated at the various street corners or anged at the drug stores and other places that were open. It seemed to be the general impression among the knowing ones that the nominees of the democratic primary, to he held on the 9th proximo, will surely be elected, and that while the friends of the various candidates in the primary will make the best fight possible for their favorites, yet, fier the nominees are chosen, all will come egether again amicably and unite in the elecon of the democratic ticket. The "comticket to run in opposition to the primary nominees are still at work, but as yet have succeeded in getting but few candidates suitable to their views. So far, it is said, only candidates for auditor and collectors of taxes have been definitely decided upon and it is now doubtful if they can "put a head on' their ticket, as the several who have been "approached" on the subject have declined. It is also said that the recimmendation of Mr. Edward Hughes for Su-erintendent of Police has been reconsiderand that that matter is now held in abey-ance, on account of the appearance of another Richmond in the field. Also, that no one will oppose Mr. R. T. Cook for Clerk of Gas, and that it will depend on the result of the democratic primary as to whether the "committee" will recommend a candidate for Superintendent of Gas. Indeed, it is more than probably that no other candi-dates will be recommendee by the committee till the democratic nominees are known. The writer in answer to his inquiries, being invariably told that the "committee" said or did thus and so, has diligently inquired who appointed the "committee" and where they got their authority, but so far his que-res remain unsatisfactorily answered. Of ficers of the knights of labor, when question ed concerning the matter positively assert that their lodge has nothing to do with the move, though they say the "committee" holds its meetings in a room adjoining theirs, and other members say that they are oprepudiate all connection or sympathy with the running of an opposition ticket. A SUFFICIENT EXCUSE.—The legislative debt settlement committee met in Richmond on Saturday, and although Speaker Stuart had telegraphed that he would be present he was not, but he had a good excuse for breaking his engagement. His house was all arranged for his departure, the trunks were all packed ready to be sent to the depot, his wife and four children, who were to accompany him, were all ready and in the most cheerful spirits at the prospect of tak-ing a delightful trip when suddenly the nurse was taken ill and announced her enthe insultity of starting on a journey. This announcement was, of course, a severe shock to all and at once dissipated all intention of going to Richmond that day, for the idea of looking after four inquiring children on a railroad car and taking them to a hotel without their nurse could not be entertained for a moment, so the trip was postponed. The nurse recovered and yesletday Judge Stuart and family left for
